

We need more stations in this area like K-LOVE; with the other stations that pollute our air-waves, having a station like K-LOVE provides a good, clean, uplifting option.

I personally feel that a station like K-LOVE is important to a community, especially one as large as San Antonio. Other cities in Texas, Houston and Dallas, have more than one Christian radio station, and it's nice driving through them to have those options. Removing K-LOVE from SA's air-waves would honestly be a dis-service more than it would a service.

I'm asking that you please do not remove this broadcasting, or replace it with something of a different format; again, K-LOVE is an important part to my, and many others in the community, daily lives.
